

PAID ASSET USER LICENSE

The following terms detail how the acquired item this license applies (henceforth known as "ASSET") may be used in "PRODUCTS" (anything generated using the assets). All of the following terms apply:

1. Single Product usage per Purchase

For each SINGULAR (1) PURCHASE of this paid asset, it may be used in a SINGULAR (1) COMMERCIAL END PRODUCT - for example, one Video Game or one YouTube Video or one Illustration.

1.1 Non-commercial use

You can use this asset in as many personal, non-commercial and educational projects as you like.

2. Commercial Use

This paid asset can be used in the following types of products:

2.1 Games, Videos, Digital Documents

Resulting products created using the assets MAY be used commercially - in other words used for products that you charge money for.

2.2 Modification

The assets MAY be modified in any way to support the development of the products outlined in this document, given that the modified assets continue to adhere to the terms being covered in this document.

3. Restricted and Prohibited Use

3.1. Printed Products

Resulting products MAY NOT be printed products if the asset is THE PRIMARY SOURCE OF VALUE FOR THE END PRODUCT. For example you can't print an image out as a poster or sticker and sell copies, as the primary value for these items is from the image itself. You CAN incorporate the asset into a larger work where the primary source of value comes from the idea, design, other assets and work put into creating the composition.

3.2. Reselling, Re-distributing and Bundling

The assets MAY NOT be resold or redistributed for others to use - neither commercially nor freely, regardless if being offered individually or as part of a bundle, and regardless if the assets have been modified in any shape or form.

3.3. Artificial Intelligence

The assets MAY NOT be used in any machine learning datasets.

3.4. Blockchain projects, NFTs, crypto, Web3

The assets MAY NOT be used in any products or projects utilizing blockchain technology, nor in Non-Fungible Tokens (NFTs), nor in any cryptocurrency or product relating to cryptocurrency, nor in any Web3-related product.

3.5. Generative Content

The assets MAY NOT be used to generate, whether manually or algorithmically, unique individual products which are then granted ownership to others.

Restrictions on Bigotry and Unethical Content

3.6. Unethical use

The copyright holder reserves the right to revoke association or attribution with any product that promotes unethical or bigoted viewpoints, including but not limited to: racism, sexism, homophobia, transphobia, non-consensual sex, worker exploitation, deliberate scams, destruction of the environment, promoting conspiracy theories, facism.

4. Transferability

The ownership of a purchase may be transferred FREELY to a SINGULAR (1) OTHER person (eg. a subcontractor for a given project), but the limitation of use in a SINGULAR (1) PRODUCT per SINGULAR (1) PURCHASE remains, and all terms continue to apply.

5. Attribution

For any product that features a section for accreditation, it is very appreciated, but NOT REQUIRED, to include a credit, referencing either the page or store where the asset was acquired, or reference the copyright holder, or both.

6. Termination

This license becomes null and void if any of the above conditions are not met.

7. Disclaimer

Assets are provided "as is", without warranty of any kind, express or implied, including but not limited to any warranties of merchantability, fitness for a particular purpose and noninfringement of copyright, patent, trademark, or other right. In no event shall the copyright holder be liable for any claim, damages or other liability, including any general, special, indirect, incidental, or consequential damages, whether in an action of contract, tort or otherwise, arising from, out of the use or inability to use the assets.

Thank you!

As a creator, I'm grateful for every single purchase. So thank you for supporting me and my work, and I hope you have a great experience using these assets and building something awesome :) Have fun!
